NEW YORK  
BOTANICAL  
GARDEN.

Dear Sir,

Your very interesting pack-  
-age of plants came safely to hand some months ago,  
and afforded me much gratification, containing many  
things that I had not yet got in my herbarium. I would  
have acknowledged the receipt of it before but that I  
wanted to advise you, which I now do, of the departure  
of another small package <sup>of Kentucky plants</sup> for your acceptance. It is  
put up with that from Dr. Short.

I shall be much gratified to hear from  
you on the receipt of it, and to receive your opinion  
on the correctness of the names, as well as the names  
of those which I have not made out. Meanwhile,  
I hope that some of the plants may be of interest to you.

Very respectfully,

Yours &c

Robt. Peter
